Advocacy

How we can help

We will talk and listen to
you to find out what you
want and how you feel

We will find information to
help you make choices

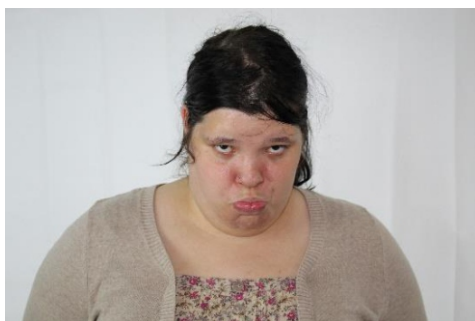

We can help you talk to
other people or groups, or
talk for you

What you need to know

We do not work for Social Services or the NHS

We will help you get your voice heard about things you are not happy with in your life

We will ask you if you want our help. It is okay to say yes or no.

We will only talk to other people when you want us to or if you or someone you know might get hurt

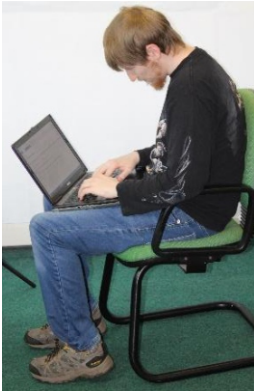

You can ask to see the notes we make about you at any time

If you are unhappy with any part of your advocacy service or advocacy report please let us know

We will try to sort out what you are unhappy about
